Notes

- 1. G - Grab, ACF - Auto-sampler composite flow proportional
- 2. 0 - Undefined, 1 - Flow, 2 - No flow, 3 - Reverse flow
- 3. 0 - Not reported, 1 - Clear sky, 2 - Slight overcast, 3 - Medium overcast, 4 - Very overcast, 5 - Drizzle, 6 - Rain
- 4. ? - Data is rejected and should not be used, I - The reported value is between the lab method detection limit and the lab practical quantitation limit, J - Estimated value: value not accurate, T - Value reported is less than the laboratory method detection limit, U - Indicates that the compound was analyzed for but not detected
- 5. J - Estimated value: value not accurate, Q - Out of holding time, T - Value reported is less than the laboratory method detection limit

Notes

1. G - Grab, ACF - Auto-sampler composite flow proportional

2. 0 - Undefined, 1 - Flow, 2 - No flow, 3 - Reverse flow

3. 0 - Not reported, 1 - Clear sky, 2 - Slight overcast, 3 - Medium overcast, 4 - Very overcast, 5 - Drizzle, 6 - Rain

4. ? - Data is rejected and should not be used, I - Reported value is between the lab method detection limit and the lab practical quantitation limit, J - Estimated value: value not accurate, T - Value reported is less than the laboratory method detection limit, U - Indicates that tl compound was analyzed for but not detected.

5. J - Estimated value: value not accurate, Q - Out of holding time, T - Value reported is less than the laboratory method detection limit

**Appendix 11.** Selected water quality measurements at Lake Okeechobee in lake sampling locations in WY2008.

Notes

1. 0 - Not reported, 1 - Clear sky, 2 - Slight overcast, 3 - Medium overcast, 4 - Very overcast, 5 - Drizzle, 6 - Rain
2. I - Reported value is between the lab method detection limit and the lab practical quantitation limit, J - Estimated value: value not accurate, J3 - Precision or accuracy criteria not met, J5 - Improper lab or field protocol, PMF - Project manager flag, U - Compound was analyzed for but not detected, V - Indicates that the analyte was detected in both the sample and the associated method blank
3. J3 - Precision or accuracy criteria not met, J5 - Improper lab or field protocol, PMF - Project manager flag, V - Indicates that the analyte was detected in both the sample and the associated method blank
